ABSTRACT

During the 1979-1980 school year, 23 Old Order Amish pupils in the Pleasant Hill School near Bloomfield, Iowa, took the Iowa Test of Basic Skills. On the language arts subtest, five of six third grade students ranked above 50% in capitalization, four ranked above 50% in spelling and punctuation, and three ranked above 50% in usage. Four third grade students ranked above 50% overall. Among seven fourth graders, five ranked above 50% in spelling, four ranked above 50% in punctuation and usage, and two ranked above 50% in capitalization. Overall, four ranked above 50%. Among five sixth graders, four ranked above 50% in spelling, punctuation, and usage, and three ranked above 50% in capitalization. Overall, four ranked over 50%. Among three seventh graders, two ranked over 50% in spelling and usage and one in capitalization and punctuation. Only one seventh grader ranked over 50% overall. Both eighth graders ranked over 90% on all measures except capitalization, in which one student's score fell to 62%. Both ranked over 90% overall. Despite variation among themselves and among grades, students were strongest in spelling and weakest in capitalization. Fifteen ranked over 50% on the total language arts subtests. (SB)

OLD ORDER AMISH, CULTURE, AND THE LANGUAGE ARTS

The Old Order Amish represent a unique subculture in society. They adhere strongly to tradition. Horses and buggies are used to transport people and goods. Horse drawn farm equipment, rather than tractors and self-propelled combines with air-conditioned cabs and power steering, is utilized in farming.

Old Order Amish pupils generally experience eight years of formal schooling. Usually, Old Order Amish are employed to teach their own pupils in a one-room schoolhouse. Outdoor toilets, a horse barn holding horses during the school day, and buggies are located on the schoolgrounds. Generally, the school year lasts eight months.

Amish Education

The writer, many times, has visited and observed Old Order Amish
pupils in Pleasant Hill School, near Bloomfield, Iowa. With basically no
reprimands from the teacher, these pupils rather continuously work on assignments
in the classroom. Inward discipline is apparent. Two Old Order Amish men
taught thirty-four pupils seated in rows and columns during the 1979-1980
school year. During one visitation made by the writer, each pupil had
completed an illustration depicting a verse or more from the Sermon on the
Mount (Matthew 5-7 in the New Testament). Secular as well as religious
admonitions are posted on classroom walls, e.g., "Be so strong that you will
never do wrong"; "Be not deceived, God is not mocked, for whatsoever a man
soweth, that shall he also reap"(Galations 6:7).

Teachers in Pleasant Hill School write assignments on the chalkboard

for each grade level of pupils to complete. After completing an assignment, at the appropriate time, the teacher orally with spils checks answers related to assignments. Pupils then learn which are correct as well as incorrect answers. Incorrect answers are corrected and involved pupils are ready to work on the next sequential lesson. Sometimes, readiness experiences precede assigned learning activities. Thus, an Old Order Amish teacher orally reads to pupils a model for writing friendly letters contained in the basal textbook, English Is Our Language, D. C. Heath Publishers, after which each pupil wrote a friendly letter.

Old Order Amish Achievement in the Language Arts

In February, 1980*, Old Order Amish Pupils in Pleasant Hill School took the <u>Iowa Test of Basic Skills</u>. Six third grade pupils revealed the following achievement in language arts:

Each of the two eighth graders scored on the ninetieth percentile or higher in the following facets of language arts achievement: spelling, punctuation, usage and total language skills. In capitalization, one pupil scored on the ninetieth percentile while the other scored on the sixty-second percentile.

In Summary

Old Order Amish pupil achievement in the language arts varies much from pupil to pupil in grades 3, 4, 6, 7, and 8. There were no fifth grade pupils involved in the study. (Pleasant Hill School had no fifth graders during the 1979-80 school year.)

The lowest percentile rank for any one pupil in a specific area of the language arts was a percentile rank of one in capitalization. The highest

percentile rank was ninety-nine for a pupil in the area of spelling.

Seventeen of twenty-three pupils achieved a percentile rank of fifty or higher in spelling. Thirteen of twenty-three pupils had a percentile rank of fifty or higher in capitalization. Sixteen of twenty-three pupils had a percentile rank of fifty or higher in punctuation. Fifteen of twenty-three pupils had a percentile rank of fifty or higher in usage. Fifteen of twenty-three pupils achieved a percentile rank of fifty or higher in the total language arts skills subtest, according to the Iowa
Test of Basic Skills.
